DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The phrase "fix the pole to the tent fabric" is unclear and confusing.

The phrase "sewing line is treated waterproof by a front waterproof tape", is unclear.

Claim 1 recites the limitation "both ends" in line 7. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 1 as best understood is rejected under 35 U.S.C. 103(a) as being unpatentable over prior art cited (figures 1-3) in view of Wallenstatter (6,338,356). Prior art discloses the use of a first and second pole holding tapes (11 and 12) that are fixed to the plurality of sewing lines (21) to the corner of the tent fabric (1); the sewing line is

treated with waterproof tape (3). Prior art shows the use of all the claimed invention but fails to show the use of a waterproof-coated material. Wallenstatter teaches the use of a waterproof material. It would have been obvious to one of ordinary skill in the art at the time of invention to modify the tent with a waterproof material as taught by Wallenstatter, in order to prevent rain (water) seeping through the tent and to prevent the occupant or user from getting wet.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following patents are cited to further show the state of the art with respect to tents: U.S Pat. No. 429210, 5820189, 4593418, 5444898, 5885679, 5067505, 4102352, 4759963, 5603591, 6606768, 6681785, 6679277, 6543465, 5398678, 5353826, 5040557, 5421355.
